

OMT
ORACLE META TECHNOLOGIES

We are grateful to every Oracle Meta Technologies user for your invaluable support and contribution to the OMT platform!

Thanks to your ever-growing interest in us, we decided to launch a new program - **Honeechize**, in honor of you, dear community! We are not standing still and are constantly looking for opportunities to grow and scale. Our strategic development department has decided to expand our product not only internally, but also externally.

WHAT IS HONEECHIZE?

Thanks to the **Honeechize** program, you have the opportunity to enter into a contract with us and open your own **HoneeAI** service server. Literally, when you reach a certain turnover within the **OMT**, we give you a specification for the launch of your own **HoneeAI**, which opens up new opportunities for you to profit at a much more efficient level than investing on general terms.

WHAT ARE THE POSSIBILITIES WITH **HONEECHIZE**?

After joining the **Honnechize** program, you get an internal admin panel where you can track absolutely all the trades made by your **HoneeAI**, as well as get information about which exchange was traded and customize the system more conveniently for you based on your preferences.

Thanks to **Honnechize**, you get a much higher % of trades made by **HoneeAI**, which significantly increases your profit from the investment than investing directly in the company.

When you work with us under the **Honnechize** program, we take our lifetime interest of 20% of your income. Other than that, there are no additional terms and fees.

WHAT CONDITIONS ARE NECESSARY TO JOIN AND WORK UNDER THE **HONEECHIZE PROGRAM?**

Every investor who has made a turnover in **OMT** from 2.3 million and above, has the right to conclude an agreement with us and open his own **Honeechize** server. In order to successfully work under the **Honeechize** program, the investor needs to provide himself with the equipment necessary for constant and uninterrupted operation of the **HoneeAI system**:

Conditions and equipment for HoneeAI operation:

- Provide an uninterrupted internet connection, with a bandwidth of at least 1000mb on give and take. Also, it is necessary to have at least three Internet channels, in case one stops working, the system automatically switched to another.
- It is necessary to provide stable electricity. In addition to the initially well-configured stream, you must put a generator, in order to avoid power outages.
- The technical equipment that produces the power output required to install, start and operate the **HoneeAI system**.

WHAT EQUIPMENT DO I NEED TO HAVE FOR YOUR **HONEEAI** TO WORK STABLY?

SETUP, STARTUP AND SUPPORT OF HONEEAI

Once all the prerequisites are met, our technician helps you get everything up and running correctly and consistently. You give us remote access to your system, where our specialist installs **HoneeAI** on your server and configures it in a basic way, similar to what the company's servers are currently configured with.

After the basic setup, you are fully trained on all the internal features of the system. We teach you how to properly monitor the system. At each system update, you are obliged to give access to our specialist who will update your server, and if necessary, check the performance of the new update for compatibility with your personal settings. In the control panel you can fully customize the referral program and profitability. After all the procedures of starting and customizing the server, every user who came to your structure will automatically get to your server and work completely on your terms.

WE ARE ETERNALLY GRATEFUL TO YOU, ORACLE META TECHNOLOGIES USERS FOR YOUR INVALUABLE SUPPORT, FAITH AND CONTRIBUTION TO THE DEVELOPMENT OF OUR PLATFORM!

Thanks to your support, we have the opportunity to scale and expand our functionality at a qualitatively high pace. The **Honeechize** program is our way of saying "Thank you to our most loyal **Oracle Meta Technologies** fans, and taking our collaboration format to the next level!

Thank you for being with us!

Regards, OMT Team
